The Game at a Glance

An AI Powered Party Game

Imagine the game Clue, expanded in every way imaginable.

Instead of a board game, a party game.

A game with an infinite numbers of environments, well-written character and dynamic conversations/interrogations.

Instead of an illustrated Colonel Mustards, multimodal interactions between your AI Avatar and another.

It makes game night into any night, with any group of friends for limitless fun and good time sharing.

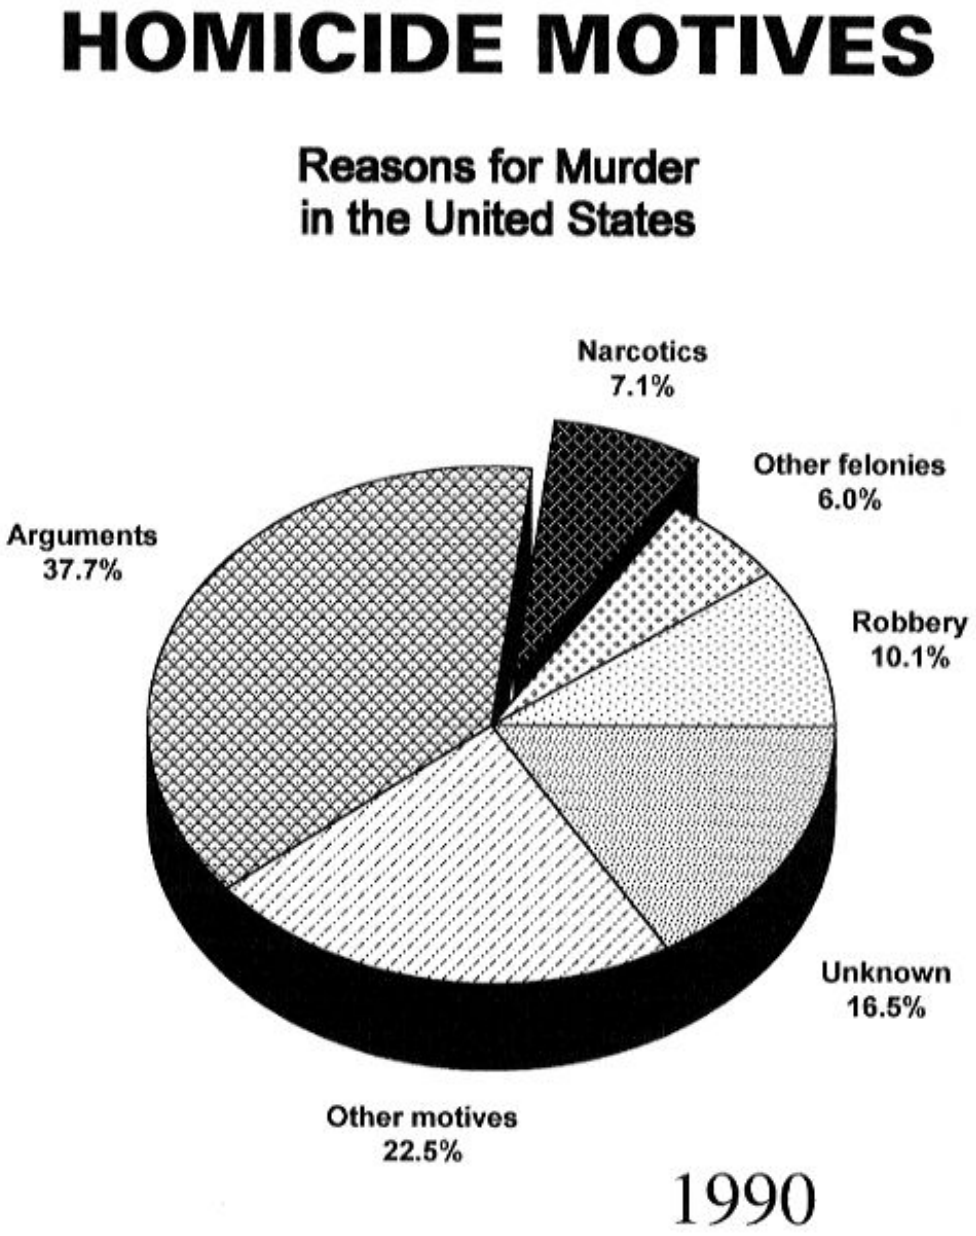
About Choose Your Mystery

SOLVING CRIMES IS FUN

Choose Your Mystery is a party game with one simple goal. Solve the mystery before your friends do.

Powered by mystery novels, true crime.

The game includes limitless situations for single and multiplayer fun.



Source: Statistical Abstract of the United States, 1992. Tab. 281. Based on police investigations.

The Five Cs

How Our Game Stands Apart

CUSTOMIZABLE

The mystery unfolds anywhere, anytime, with any type of player

CAMARADERIE

Whether playing against friends or with them, the game encourages dialogue and sharing.

COMPETITIVE

The goal is to solve the mystery first. It takes intuition, logic, skill and maybe some deception.

COMPLETE

From working the crime scene, to chasing leads and questioning subjects and witnesses.

CLEVER

Dialogue, motives and machinations create memorable experiences.

Game Flow

USER PROMPT → AI Generation → CRIME SCENE → Crime Board Assembly → CHASE LEADS → Information Sharing → NAME THE CULPRIT

SETTING

Alone or as a group. Game style (single player, PvP, Co-op), setting and avatars are selected.

INVESTIGATE

Users look for clues, identify witnesses, collect evidence in an unique AI generated environment

WORK THE CASE

AI Witnesses and suspects are brought in and questioned. Crime boards are assembled. Information is shared (in co-op) or withheld.

FINALE

Did you nail the perp? Bring him/her in and make your case. Be the first to do it correctly, and you win.

Features

CUSTOMIZABLE

Prompt driven scenarios: “A murder on Mars,” “Sabotage on a Submarine,” “A robbery in a land of rainbows and unicorns”

BEST WITH FRIENDS

Take turns questioning witnesses, examining evidence. Share information, share disinformation. Your choice

EVERY GAME UNIQUE

In addition to the scenario, AI generated avatars customize each game with different witnesses, suspects, detectives and bystanders.

VIRAL ELEMENTS

Easily shareable videos of interrogations, celebrations and denouements.

AI & DEVELOPMENT

Backbone

Powered by:

- murder mystery novels
- non-fiction true crime books / articles / podcast transcripts
- forensic manuals
- TV/Movie screenplays

To Drive:

- Character archetypes
- Motives and Misdirection
- Dialogue
