Game Overview

An Multiplayer AI Powered Party Game

Customized AI generated player avatars

Avatar animations

Limitless questions and categories

Roguelike gameplay via action cards

It makes game night into any night, with any group of friends for limitless fun and good time sharing.

Gameplay Overview

STEP 1: Environment Selection

Players:

- Optional login
- Enter aliases
- Agree on game setting
- Choose avatars (via generative AI engine)
- Choose custom celebration and antagonist animation
- Agree on host appearance (voting)
- Agree on host personality (mean, snarky, witty, nice, sexy)

Gameplay Overview

STEP 2: Choosing Categories

- Depending on the number of players, between 5-10 categories are pre-selected
- Users take turns approving or rejecting a category.
- Once a category has been approved, it cannot be rejected.
- Number of categories in gameplay depends on number of players.

Gameplay Overview

STEP 3: Gameplay

- Gameplay order randomly chosen *
- Before player chooses category, NEXT player chooses the amount. Limits and minimums of amount TBD
  - Variation of “you cut, I choose” cake slicing.
- Correct answer means go again.
- Correct answer also mean answerer gets gameplay card

*For subsequent games, winner goes last.

Gameplay Overview

STEP 4: Gameplay Cards

- Players need two (2) of the same card to be able to play them.
- Cards can be traded, but trading reveals card type
- Cards can be played only AFTER category and amount are chosen.
- Only one card can be played per turn.

*For subsequent games, winner goes last.

Gameplay Overview

STEP 4a: Gameplay Card Types

- Whoa Nellie: Change Question
- Redirect: Question moved to random new player
- Hint Me Up: First and last letter of answer
- Bear Market: Changes value up.
- Bull Market: Changes value down.
- Pinch Penny: Chosen player loses % of points
- Safety Net: No $ lost.
- Mute List: Player can’t answer with specific words.
- Halftime: Time to answer is halved
